1.1 Real Estate Development

Real Estate/Property Development

SOLYANA COMPANY LTD has built its reputation on financial strength, the ability to respond quickly to opportunities in the marketplace, and a history of positive performance on behalf of our clients.

Founded in 2011, SOLYANA has achieved consistent growth and profitability. Our staff incorporates over 8 full-time professionals experienced in every aspect of the real estate industry. Our corporate office is in CIC Plaza, Kololo Airport Road, Juba, South Sudan.

As a diversified, full service real estate firm, SOLYANA is active in the marketing, development, asset management and facilities management of office, medical office, industrial and retail properties. The firm's industrial, retail and office brokerage divisions have consistently ranked among the most active in the region with consistent growth being achieved each year. We manage over

8,200 square feet and have handled more than 21 real estate transactions in the 3 countries.

SOLYANA's strategic business plan continues to emphasize seven primary real estate disciplines:

- Real Estate Development
- Corporate Real Estate Services
- Tenant Representation
- Development and Redevelopment
- Sales and Acquisitions
- Investment Services
- Marketing of Real Estate Assets

Being privately owned and entrepreneurial in its aspirations, the company encounters none of the constraints of managerial bureaucracy. Our staff team comprises of people who are progress-driven and are able to rise above technical barriers to ensure that the job gets done. This is enabled us to be swift in our decisions and delivery of tasks. At SOLYANA, we strongly believe in ensuring that the client's needs are met just as he had desired. We commit ourselves to unambiguously interpret all our client's requirements and then from our wealth of experience and skill, employ creative problem solving techniques to provide just the right solution. This has enabled us to get and retain many clients over time because of our quality of service.

Construction

Our strength in delivery is largely attributable to our core team's extensive experience in construction. We deliver construction projects to multiple sectors including office, industrial, retail, hospitality, aged care, child care, and multi-unit residential.

Our team of construction professionals possesses extensive experience in small to large complex projects. Whether your project is small, medium or large, we will know exactly how to get it done.

Our project delivery is successful because as a company principle, the leadership from our construction team is actively involved from the onset of the project to assess the project requirements and risks. This helps us to ensure that things are done in the right way right from the start, and in strict conformance to applicable standards and client's requirements.

Our legal presence in South Sudan

2.1 Real Estate Development

Real Estate Development

Founded by Eskindir, Solyana Company is a nationally acclaimed real estate developer of residential, commercial, retail, hospitality and mixed use properties operating primarily in Nairobi and other premier cities across the nation. Since its founding in 2011, Solyana has experienced outstanding growth, with a portfolio that currently exceeds 400,000 square feet.

Setting new standards in the real estate industry, Solyana has earned a stellar reputation for its dedication to the development of superior quality properties distinguished by sophisticated design, gracious floor plans and first class amenities.

As a company we strive to create both value and beauty. The results are a superior product for our customer and excellent financial returns for our investors.

We build value through our forwards-thinking designs, a statute use of financial resources, effective public and private partnerships and employment of talented professionals. Our commitment to the long-term profitability of every project we undertake is unwavering.

Through Solyana Management, we actively manage more than 60,000 square feet of office, industrial, retail and raw land. We work with brokers and owners to identify projects to which we can add value through our experience and market knowledge. Typical projects are analyzed to determine investment feasibility, risk factors, entitlement obstacles, debt and equity availability and other various factors. If, after thorough due diligence, the project meets our investment goals, it will be acquired using a combination of debt and equity.

2.2 Private Development and FBT

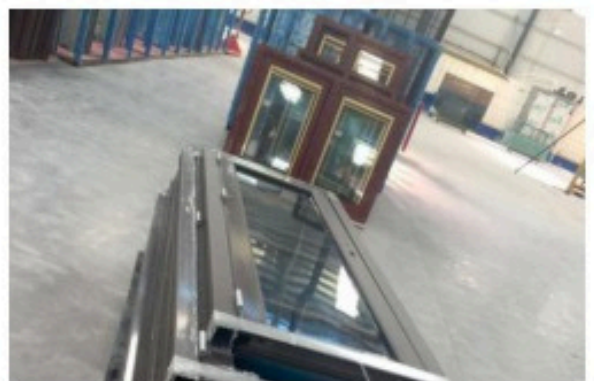

Private Development

At SOLYANA, we also get into private property development for clients.

Under this arrangement, we have an ongoing project with The Management University of Africa (MUA) and have been able to construct:

- Build up area of more than 5,000 square meters.
- Full university facilities with library, catering and all university related facilities

We are also doing private property development in Kiambu region where we are constructing houses and apartments.

Finance-Build-Transfer (FBT)

We also partner with institutions under the Finance-Build-Transfer (FBT) model.

In this arrangement, we construct a property for the institution and once it is done, we transfer the management of the building back to the client institution.

The MUA arrangement is also under the FBT model.
